Obertauern – where snow makes its home

I want to go skiing ...

Obertauern, located at elevations ranging from 1650 to 2313 meters above sea level, is an extraordinary ski area with exceptionally reliable snow conditions.

More than 100 kilometers of perfectly groomed pistes – 61 km easy (blue), 35 km intermediate (red) and 4 km expert (black) – along with state-of-the-art lifts, friendly ski huts and an amazing après-ski vibe.

Lifts in Obertauern

The Obertauern ski area boasts a total of 26 lifts including 1 gondola lift, 2 combo chair & cabin lifts, 17 chairlifts, 5 tows, as well as a sheltered conveyor lift.

Hours of Operation

- The Obertauern lifts run from 9 AM to 4 PM.
- IMPORTANT – PISTES ARE CLOSED for daily maintenance from 5 PM (6:30 PM) until 8 AM. Snowcats and cable winches are in operation at that time!

Signs

In Obertauern, big yellow signs help you find your way around the ski area. At each piste turn-off, the nearest lifts and the piste layout are shown on info signs. For even easier navigation, all pistes are numbered with the number of the respective ski lift followed by a, b, c etc. Furthermore, the color of the sign indicates the degree of difficulty (blue = easy, red = intermediate, black = expert).

Important: Unmarked and/or non-groomed ski runs are not considered to be pistes.

Lift service for pedestrians without ski or snowboard equipment:

At the Zehnerkarbahn [1] (up and down the mountains), the Grünwaldkopfbahn [8] (up and down), the Plattenkarbahn [3] (up and down) and the Edelweissbahn [18] (up only), people are also transported without ski or snowboard equipment. Tickets may be purchased directly at the lift valley stations.

HOTEL INFORMATION

Grosseck-Speiereck Ski Area in Mauterndorf / St. Michael

There is a ticket alliance which includes the ski area in Obertauern and Grosseck/Speiereck in Mauterndorf / St. Michael in the Salzburger Lungau region.

That said, multiday ski passes (valid 1.5 days or longer, no points passes) are also valid in the Grosseck/Speiereck ski area 15 km south of Obertauern. The ski bus which runs there may be used free of charge with a valid ski pass (does not apply to group tickets!).

Especially in bad weather or strong winds, this might well be a good option since the weather is generally calmer there than it is in Obertauern.

From Hotel Solaria straight to the piste

SKI IN. From the ski room at Hotel Solaria, it is just a matter of a few steps to the No.5 ski bridge, on the other side of which you will be able to clamp on your skis, then glide down to the nearest ski lift, the Kirchbühel tow [25], the Sonnenlift [15], the Grünwaldkopfbahn [8] or the Zehnerkarbahn [1].

SKI OUT. The best way to return to Hotel Solaria from the pistes, practically all the way back to our front door in fact, is always across the northern slopes.

If you are in the area next to the Panoramabahn [10], use the blue run (8a) towards the Grünwaldkopfbahn and then, half-way down, switch to the piste (15c) at the Sonnenlift. At the bottom, cross the No. 3 ski bridge over to the Kirchbühel tow [25]. Keep left at the top, ski down to ski bridge No.5, then return to the hotel.

If you find yourself in the area of the Edelweissbahn [18], Plattenkarbahn [3] or Schaidbergbahn [2], take the Achenrainbahn [13] and use it to cross the road. At your exit point – roughly half-way up the Gamsleitenbahn 1 [14] – take the traverse (14a) to the Zehnerkar Family Hill (1a), which will bring you back to the Kirchbühel tow [25], bridge No.5 and finally back to the hotel.

Tauernrunde

If you know Obertauern, you are already very familiar with the Tauernrunde – a way to circumnavigate Obertauern on skis by way of the pistes. The RED Tauernrunde (12 km) takes you in a clockwise direction and the GREEN Tauernrunde (12 km) in a counterclockwise direction through the entire ski area. For a change of pace during repeated tours, skiers often opt for runs that are outside the Tauernrunde. Red and green signs at entrance points and intersections ensure you will always be on the right path.

Race hills with permanent timekeeping have been created at the Sonnenlift 3 [23], the Schönlmbahn [11], the Kirchbühellift [25] and the Schrotteralm lift [24].

Good Morning Obertauern

Obertauern has something really special in store for all early risers: Every Wednesday, the Zehnerkarbahn [1], Gamsleitenbahn 1 [14] and Achenrainbahn [13] are open for you from 8:30 AM. Enjoy the refreshing mountain air during your morning ski adventures, observing how the mountains awaken as you glide down those freshly groomed slopes.

Night Skiing in Obertauern

Every Monday and Thursday from 7 to 10 PM, you can look forward to 1500 meters of skiing enjoyment under the lights at the Edelweiss quad chairlift [18]. All lift tickets from the Obertauern and Lungo ski pools valid for 1.5 days or longer are also valid for night skiing. Evening tickets for day guests are available at the Edelweissbahn valley station. The Salzburger Super Ski Card is not valid for nighttime skiing.

Bibo Bear Family Ski Park for Our Littlest Guests

Visit Bibo Bear and his pals at the family ski park in the “Village of Animals” next to the Edelweiss lift [18] in Obertauern. After all, kids learn so much more when they are having fun.

At Bibo Bear Family Ski Park, our young guests find three pistes developed just for them, with various features, challenges and levels of difficulty, suitable for beginners as well as those who already have a fair amount of experience. Native animals teach the important basics of skiing: high levels of concentration and attentiveness on the piste, sense of balance, how to get your bearings when you are out in open terrain, getting used to the speed, adjusting your ski behaviors to piste conditions, skiing through curves, carving, slalom turns, hopping and jumping. So, off you go and have lots of fun.

Away from the pistes – freeriding, cross-country ...

Absolute insider tip for freeriders

The pros already recognize Obertauern as an insider tip for freeriders, many of them taking full advantage of the “snow bowl” that is Obertauern as their personal training hotspot. A freeride checkpoint provides current information about local conditions, located at the mountain terminal of the Hochalmbahn.

And thanks to expert local guides, freeriders can always count on being in the best of hands as they explore the Tauern mountains.

Important: Whenever you go off-piste, you are in unsecured and uninspected alpine terrain, doing so at your own risk. Information about the current avalanche situation / avalanche threat level can be obtained from the Salzburger Land Avalanche Warning Service, Tel. +43 662 8042 2170 or online at <https://lawine.salzburg.at/>.
